ALTERNATIVE PERFORMANCE MEASURES

All metrics and commentary in this presentation are at reported FX and exclude adjusting items unless stated otherwise.

Constant exchange rates (CER) removes the effect of changes in exchange rates compared to the prior period. This takes into account both the impact of the movement in exchange rates on the translation of overseas subsidiaries' results and also on foreign currency procurement and sales through the Group's UK supply chain.

Comparable sales is the year-on-year change in sales from stores trading over equivalent time periods and measured at constant foreign exchange rates. It also includes online sales

Cumulative costs savings are savings compared to FY 2016 operating expenses.

Certain financial data within this presentation have been rounded.
