STRATEGY

Launched in November 2017, our strategy focuses on rooting Burberry firmly in the luxury sector. We believe that by fostering the creativity that has driven our brand since its inception, we will introduce Burberry to new customers while delighting our existing customer base. In doing so, we aim to deliver sustainable long-term value for our shareholders. We have based the strategy on four revenue drivers with two enablers as we show in the diagram below:

OUR TRANSFORMATION JOURNEY

SET THE FOUNDATION
- Ignite brand heat with influencers and key opinion leaders
- Manage product transition and invest in image-driving channels

BALANCE SHEET AND LIQUIDITY
Q3 2021 STRATEGIC HIGHLIGHTS

• Retail comparable store sales declined 9% as planned reductions in markdown and reduced
tourist traffic in outlets offset high single-digit full-price sales growth
  • COVID-19 related store closures averaged 7% in Q3 FY2021 impacting trading
  • Full price sales growth driven by new, younger clientele as well as repeat customers
    • Highly successful festive campaign featuring Marcus Rashford MBE
      Good strategic progress in key areas:
      • Full price sales in leather and outerwear increased low teens
      • Digital full-price sales growth over 50% with Mainland China in triple digits

OUTLOOK FY2021

We remain encouraged by the strong underlying outperformance of full-price sales in Q3
FY2021. Notwithstanding further COVID-19 disruption, we expect continued progress on
our strategic objectives in Q4 FY2021. Gross margins will benefit from full price, regional,
and channel mix changes as well as lower stock provisions. Inventory and cost management
plans remain on track. Whilst Q4 FY2021 headwinds persist from store closures, the
performance of Q2/Q3 FY2021, driven by product and digital capabilities, reinforces
confidence in our prospects.

OUR CAPITAL ALLOCATION FRAMEWORK

Our capital allocation principles are based on maintaining an investment grade credit rating -
Moody’s Baa2 (stable). We aim for Net Debt/adjusted EBITDA to be in the range of 0.5x to
1.0x on a rolling 12 month period – H1 FY2021 0.9x.

Our first priority for capital is to invest in organic growth

1. REINVEST FOR ORGANIC GROWTH
2. PROGRESSIVE DIVIDEND POLICY
3. STRATEGIC INVESTMENTS
4. RETURN EXCESS CASH

Maintain strong balance sheet with solid investment grade creditmetrics
