

**BURBERRY**

**PREFERRED PACKAGING MATERIALS LIST**

Updated on 1 May 2026

## Preferred Packaging Materials List

Progress against Burberry's target for 100% preferred materials in packaging is monitored through adherence to the preferred packaging materials list. The criteria below refers to the main material of the packaging item. The main material represents the majority % composition of the packaging item. Certifications required to a minimum of material level.  
Preferred Materials List to be reviewed and updated annually to ensure credible and robust standards.

Origin	Raw Material	Sustainable Claim	Accepted Criteria
Plant	Wood, Bamboo & Paper	Forest Stewardship Council (FSC®) Certified  PEFC ©	FSC © Standard: 100% of timber or fiber comes from FSC certified forest  FSC © Mix : >70% must be FSC certified wood and or recycled  FSC © Recycled: 100% of timber or fibre  FSC © Bamboo  PEFC - Programme for the Endorsement of Forest Certification
Synthetic	Polyester, Nylon, TPU, PU, Econyl, LDPE, PS, HDPE, PLA	Recycled  Biobased	GRS – Global Recycled Standard 100% Recycled Content  (Carbon Testing > 30%: For biobased materials, laboratory tests are mandated to meet internal carbon content thresholds (>30%). Biobased must represent at least 85% of the packaging weight
Plant	Cotton	Recycled  Organic	GRS – Global Recycled Standard >50% (Post Consumer Recycled Content preferred over Pre Consumer Recycled Content)  Organic Content Standard > OCS 50%  Global Organic Textile Standard (GOTS) > 70%
