

BURBERRY

CERTIFIED & RESPONSIBLY SOURCED RAW MATERIALS PROGRAMME

Updated on 8 Oct 2026

Sustainable Raw Materials Portfolio

In scope for FY30 target

The criteria below refers to the main fibre of a material. The main fibre represents at least 50% of the material composition[1]. Certifications required to a minimum of fabric level*

Origin	Raw Material	Sustainable Claim(s)	Accepted Criteria
Plant	 Cotton	Organic	Organic Content Standard (OCS) ≥**50%** & Global Organic Textile Standard (GOTS) ≥**70%**
		Recycled	Global Recycled Standard (GRS) ≥**20%** & Recycled Claim Standard (RCS) ≥**20%**
		Regenerative	Regenagri, Nativa Regen **100%**
Synthetic	 Polyester, Nylon, TPU, PU Econyl®	Econyl	Global Recycled Standard (GRS) ≥**50%**
		Bio Based	Carbon Testing[2] ≥**30%**
		Recycled	Global Recycled Standard (GRS) ≥**50%,** Recycled Claim Standard (RCS) ≥**50%,** Plastica Seconda Vita (PSV) ≥**50%**
Man made cellulosic fibres	 Viscose	Green Rated	Canopy Hot Button Report (Green Rated) **100%**
		Certified	Forest Stewardship Council (FSC) **100%**
Animal	 Down & Feathers	Certified Virgin Down	Responsible Down Standard (RDS) **100%**
		Recycled	Global Recycled Standard (GRS) **100%**
	 Leather	Certified Tannery	Minimum one environmental and one social certification required Environmental: ISO14001; Leather Working Group ≥ **Bronze Level** Social: SA8000, UNIC code of conduct, Burberry audit or equivalent[3]
	 Wool	Recycled	Global Recycled Standard (GRS) ≥**20%** & Recycled Claim Standard (RCS) ≥**20%**
		Certified Virgin Wool	Responsible Wool Standard (RWS), Nativa Precious Fibre, ZQ Natural Fibres & Norwegian Wool[4] **100%**
		Regenerative	ZQ+, Nativa Regen **100%**

1. For leather goods, the criteria will differ: coated materials with PU/TPU coatings that contain more than 30% biobased content will be included in the scope.
2. For biobased materials, laboratory tests are mandated to meet internal carbon content thresholds (**≥30%)**
3. For certified leather, alongside certifications, we accept social compliance audits conducted by Burberry and other brands.
4. Norwegian wool is not a certification but part of Responsibly Sourced criteria. It is not associated to any product claim.

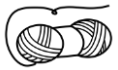

Note: Our Sustainable Raw Materials Portfolio will be continually reviewed and updated with new standards where applicable.

*Where a certificate cannot be obtained at fabric level, we will accept yarn level if integrated with a Raw Material Supplier and Vendor Declaration.

Sustainable Raw Materials Portfolio

Not in scope for FY30 target but suggested as preferred sourcing options

The criteria below refers to the main fibre of a material. The main fibre represents at least 50% of the material composition. Certifications required to a minimum of fabric level*

Origin	Raw Material	Sustainable Claim(s)	Accepted Criteria
Animal	 Alpaca	Certified Virgin Alpaca	Responsible Animal Fibre (RAF) **100%**
	 Mohair	Certified Virgin Mohair	Responsible Animal Fibre (RAF) **100%**
	 Cashmere	Certified Virgin Cashmere	Sustainable Fibre Alliance (SFA), Nativa **100%**
		Recycled	Global Recycled Standard (GRS) ≥**20%** & Recycled Claim Standard (RCS) ≥**20%**
		Organic	Global Organic Textile Standards (GOTS) ≥**70%**
		Regenerative	Nativa Regen **100%**
	 Silk	Organic	Organic Content Standard (OCS) ≥**50%** & Global Organic Textile Standard (GOTS) ≥**70%**
		Recycled	Global Recycled Standard (GRS) ≥**20%** & Recycled Claim Standard (RCS) ≥**20%**
Metal	 Silver & Gold	Certified gold & silver/refiner	Responsible Jewellery Council

Note: Our Sustainable Raw Materials Portfolio will be continually reviewed and updated with new standards where applicable.
*Where a certificate cannot be obtained at fabric level, we will accept yarn level if integrated with a Raw Material Supplier and Vendor Declaration.
