

BURBERRY

LONDON ENGLAND

"I am pleased with our progress in the quarter as we continued to build brand heat around our new creative vision and continued to shift consumer perception of Burberry. Excitement is growing ahead of next month's launch of Riccardo's debut collection. We will continue to manage the business dynamically as we reposition the brand. We confirm our outlook for the full year."

Marco Gobbetti, Chief Executive Officer –January 2019

Constant exchange rates (CER) removes the effect of changes in exchange rates compared to the prior period. This takes into account both the impact of the movement in exchange rates on the translation of overseas subsidiaries' results and also on foreign currency procurement and sales through the Group's UK supply chain.

Revenue excluding Beauty wholesale is presented to exclude Beauty wholesale revenue of £73m (2017: £171m) from total revenue to provide an understanding of the revenue of the business following the disposal of the Beauty business in October 2017.

Comparable sales is the year-on-year change in sales from stores trading over equivalent time periods and measured at constant foreign exchange rates. It also includes online sales.

Cumulative costs savings are savings compared to FY 2016 operating expenses.

Certain financial data within this presentation have been rounded.
