ALTERNATIVE PERFORMANCE MEASURES

All metrics and commentary in this presentation are at reported FX and exclude adjusting items unless stated otherwise.

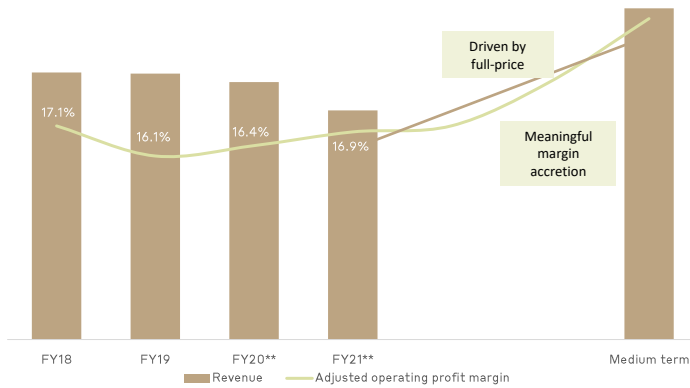

Constant exchange rates (CER) removes the effect of changes in exchange rates compared to the prior period. It incorporates both the impact of the movement in exchange rates on the translation of overseas subsidiaries' results and also on foreign currency procurement and sales through the Group's UK supply chain.

Comparable sales is the year-on-year change in sales from stores trading over equivalent time periods and measured at constant foreign exchange rates. It also includes online sales. This measure is used to strip out the impact of store openings and closings, or those closures relating to refurbishments, allowing a comparison of equivalent store performance against the prior period. The measurement of comparable sales has **not** excluded stores temporarily closed as a result of the COVID-19 outbreak.

Certain financial data within this presentation have been rounded.

MEDIUM TERM GUIDANCE

Transformation years and COVID-19 impact The next chapter: Accelerate and grow

Revenue growth

HSD Revenue CAGR (base FY20)* driven by brand advocacy, core product categories, improved sales densities, digital and full-price

Adjusted operating margin

FY22 increased investment and cost normalisation

Medium-term accretion expected driven by revenue growth and fixed cost leverage

*Guidance based on constant exchange rates

**Historical margins as reported with FY19 impacted by adverse FX (-110bps) and from FY20 adjusted operating profit is reported under IFRS16 (+110bps in FY20 v IAS17)

FY22 FINANCIAL OUTLOOK

REVENUE	Markdowns	As guided, we will be exiting markdowns in digital and mainline stores in FY22, leading to a mid-single digit headwind against our comparable store sales in FY22 vs LY and high single digit % v LLY
	Wholesale	Full year wholesale is expected to be up high 30s% at CER (mid 30s% previously)
	Retail space	For the FY, space is expected to contribute LSD percentage with H2 also up LSD percentage on a 52 week basis
PROFIT	Gross margin	To remain stable at 70% YoY at CER
	Tax rate	We expect the adjusted tax rate to be around 22%
CASH FLOW	Capex	Capex is expected to be in the region of £150m (£160m previously) including around 50 stores opened/refurbished in the new format
FX*	FX	At 29 October spot rates, the impact of year-on-year exchange rate movements is expected to be a c.£79m (from c.£100m) headwind on revenue and c.£27m (from c.£40m) headwind on adjusted operating profit
CALENDAR		Please note that FY22 is a 53 week calendar year with an extra week in Q4

- Based on FX rates at 24 December 2021 spot rates
- Note: all guidance based on FY21 CER

FOREIGN EXCHANGE RATES

Exchange rates	Forecast effective rates for FY22		Actual average exchange rates
	24 December 2021	29 October 2021	FY21
